One app for drivers and owners

Vahanza helps vehicle owners and transporters find drivers near them — and helps drivers find work — with direct calls, no middlemen and no commission. It is built Hindi-first, for people who may not read much, with big buttons, one question per screen and simple words.

3

platforms: Android app,
web, mobile web
(installable)

2

languages: Hindi (default)
& English

0 ₹

for drivers & owners — no
fees, no commission

1

admin panel to run
everything — no new app
needed

For drivers

Jobs near them, one-tap "available" switch, a profile owners trust, work history confirmed by past owners, a shareable Digital Card.

For owners

Post "I need a driver" in a minute, see nearby drivers with experience, licence, ratings and confirmed history, and call directly.

For the business

A full admin panel: dashboard, check queue, users, bulk import, QR posters, rewards settings and a live brand theme builder.

Design principles

- **Hindi-first, simple words**, big touch targets, one question per screen; English available any time.
- **Phone numbers are private** — never shown in lists, cards or share links; revealed only when someone taps Call / WhatsApp.
- **Show only what matters** on the main screen; everything else one tap away.
- **Light & dark mode**, works on small phones (320 px) to large desktops; installable on the home screen.

हिंदी में

Vahanza एक ऐप है जिसमें गाड़ी मालिक पास के ड्राइवर ढूँढते हैं और ड्राइवर पास का काम — सीधे कॉल, कोई बिचौलिया नहीं, कोई कमीशन नहीं। ऐप हिंदी में है, बड़े बटन और आसान शब्दों के साथ। नंबर किसी लिस्ट में नहीं दिखता — सिर्फ़ "कॉल करें" दबाने पर।

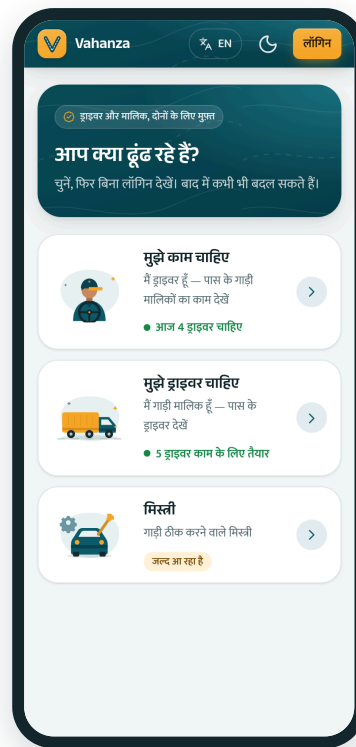

First page, login, MPIN and app lock

First page — no login needed

- "आप क्या ढूँढ रहे हैं?" with three big choices: I need work (driver), I need a driver (owner), Mechanic (coming soon).
- Visitors can see **live jobs** and the **driver list** in their city before logging in. Owner names and all phone numbers stay hidden.
- Login is asked only when someone taps **Call**; afterwards the app returns to what they tapped.
- The choice is remembered and pre-selects the role after login.

Login

- **Mobile number + OTP** (auto-fill on Android, resend after 30 s). One number = one role.
- **MPIN** (4 digits): next logins are number → MPIN, no OTP. "Forgot MPIN" uses OTP. 5 wrong tries lock MPIN login for 30 minutes.
- **App lock** (Android): fingerprint / face or MPIN when the app opens and after 5 minutes in the background. Works offline.
- Stays logged in; "log out" and "log out from all devices".
- **Signup asks only name + place**; the rest is filled later, one short step at a time, saved as you go.

First page (no login)

Login with mobile number

हिंदी में

पहले पेज पर बिना लॉगिन के काम और ड्राइवर दिखते हैं। लॉगिन सिर्फ "कॉल" दबाने पर — मोबाइल नंबर और OTP से। उसके बाद 4 अंक का MPIN, और Android ऐप में फिंगरप्रिंट / चेहरे से ऐप लॉक। साइन-अप में सिर्फ नाम और जगह — बाकी बाद में, थोड़ा-थोड़ा।

Jobs near me, a profile owners trust

Home

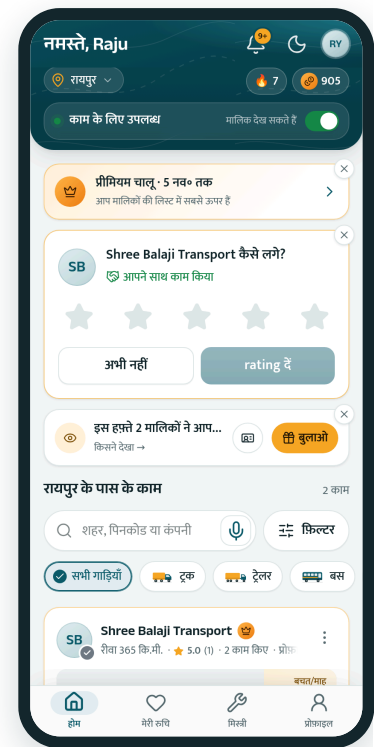

- "काम के लिए उपलब्ध" switch — off means hidden from owners.
- Points and 🔥 days in a row at the top; a slim Premium card with progress.
- Jobs near me as compact cards: vehicle, wheels, drivers needed, monthly savings (बचत), licence, cities, facilities.
- One row of actions: Call, WhatsApp, Interested (रुचि), Share. "पूरी जानकारी" opens every detail.
- Suggestion cards (complete profile, add work history, who saw me...) can be hidden with ✕; they come back on the next visit.

Profile setup (short steps)

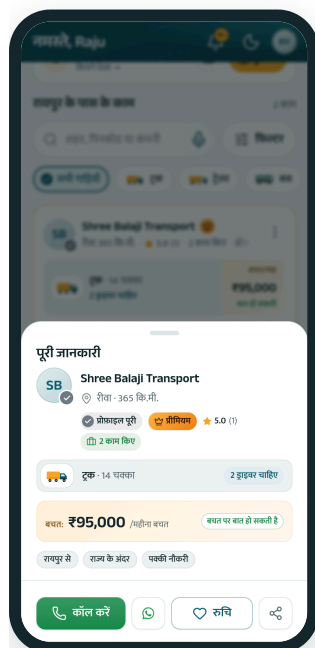

- Photo (optional), name, place (GPS / pincode / city), vehicles + biggest wheel size, licence type (only last 4 characters kept), experience, savings wanted + negotiable, pay preferences, type of work, area, languages, start date.
- Preview of exactly how owners will see the card.

More for drivers

- My interests — jobs I tapped, and whether the owner has seen it.
- "Owner saw your profile" + weekly count; licence renewal reminder (30 & 7 days before).
- "काम मिल गया" — confirm a job; it counts on the card ("N काम किए").
- Digital Card for WhatsApp Status (no phone number on it).
- "Still looking for work?" every 14 days keeps the list fresh.

Driver home

Job — full details

Driver profile

हिंदी में

ड्राइवर के होम पर: "काम के लिए उपलब्ध" स्विच, ऊपर अंक और लगातार दिन, और पास के काम — गाड़ी, चक्के, कितने ड्राइवर, महीने की बचत। एक लाइन में कॉल, WhatsApp, रुचि और शेयर। प्रोफाइल छोटे-छोटे स्टेप में भरी जाती है, और मालिक को कैसा दिखेगा वो पहले ही दिखता है। "काम मिल गया", डिजिटल कार्ड और लाइसेंस रिन्यू की याद भी।

Post in a minute, call the right driver

Home

- Big "ड्राइवर चाहिए, पोस्ट करें" button.
- **Drivers near me:** availability (e.g. "तुरंत मिलेगा"), distance, experience, rating, vehicles, wheels, savings asked, licence, languages, and "✓ N owners confirmed" work history.
- Full details show the driver's work history (Premium shows every owner's stars and "would hire again").

Fleet & posts

- **Fleet groups:** vehicle type × wheels × how many × one or more base cities.
- **New post:** pick fleet groups, drivers needed, estimated monthly savings, pay mix (optional), cities & coverage, licence + minimum experience, facilities. Live at once (or "under check" if unusual).
- **My posts:** who is interested (new ones marked), how many viewed, pause / close, share on WhatsApp.
- "काम मिल गया": mark filled and pick who was hired; the driver confirms.
- Posts expire after 30 days; up to 10 live posts (25 with Premium).

Owner home

Owner extras

- "जल्दी जवाब" badge for owners who open interested drivers within a day.
- Answer drivers' work-history requests (हाँ / तारीख अलग है / नहीं), with stars and "would hire again?".
- Weekly "N drivers saw your post".

Driver — full details

My posts

हिंदी में

मालिक एक मिनट में "ड्राइवर चाहिए" पोस्ट डालता है — गाड़ी, कितने ड्राइवर, महीने की बचत, शहर। होम पर पास के ड्राइवर दिखते हैं — तजुर्बा, रेटिंग, लाइसेंस और पुराने मालिकों की पुष्टि। "मेरी पोस्ट" में कौन रुचि दिखा रहा है, किसने देखी, और "काम मिल गया"।

Find the right match fast

One search bar on every list

- Type a **city** (Hindi or English), a **pincode**, a **name / firm** or a **vehicle word** ("truck rewa", "ट्रक"). Voice typing where supported.
- **Phone numbers are never searchable.**
- Vehicle chips stay on screen; active filters show as removable chips.

Filters (with a live "N मिले" count)

- **Both:** sort (nearest / newest / savings / rating), city + distance (25 / 50 / 100 km / any), wheels, verified only.
- **Owner** → **drivers:** licence, experience, savings asked, can start by, rating 4★+, languages, **blue / gold tick only** (Premium).
- **Driver** → **jobs:** least savings, kind of work, where the vehicle runs, facilities, new jobs only.

Contact & privacy

- Numbers appear **only when Call / WhatsApp is tapped**, and each reveal is recorded (max 60 a day per person, stops scraping).
- WhatsApp opens with a ready Hindi message.
- **Interested** lets a driver apply without calling; the owner sees them under the post.

Filters (owner)

हिंदी में

हर लिस्ट पर एक खोज-बार — शहर, पिनकोड, नाम या गाड़ी लिखें, या बोलकर खोजें। फ़िल्टर में दूरी, चक्के, लाइसेंस, तजुर्बा, बचत, रेटिंग और भाषा। मोबाइल नंबर से खोज नहीं होती, और नंबर सिर्फ़ "कॉल / WhatsApp" दबाने पर दिखता है।

Ticks, verification, ratings and reports

Four trust ticks — earned, never bought

Tick	Driver gets it when...	Owner gets it when...
✓ Gray • प्रोफाइल पूरी	Profile complete (vehicles + start date)	Profile complete (fleet added)
✓ Blue • जाँचा हुआ	Licence photo + selfie checked by admin	Shop board / GST / RC + selfie checked
✓ Gold • सुनहरा भरोसा	Blue + 2 owners confirmed work + rating 4+	Blue + 3 hires + "fast reply" or rating 4+
✓ Black • Vahanza ने चुना	Chosen by the brand team from the admin panel (most trusted people / partners)	

Verification by photo

- Driver: licence + selfie. Owner: shop board / GST / RC + selfie.
- Admin approves or rejects with a reason; **photos are deleted right after the check.**

Ratings

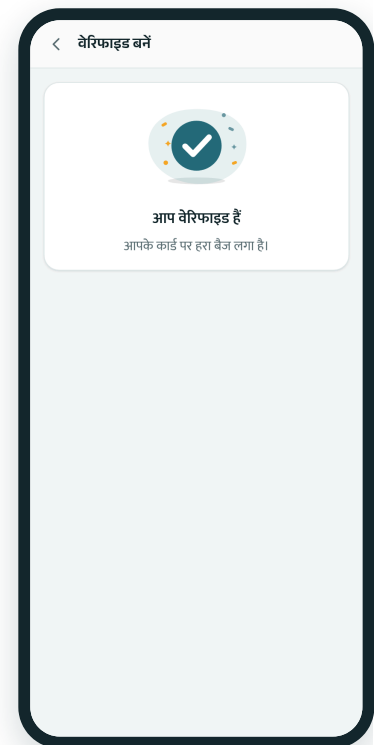

- 1–5 stars + quick tags, only between people who were really in touch. After a confirmed job the rating carries "**worked together**".

Report & block (: on every card)

- Report: asked for money, wrong number, fake, bad behaviour, other. Two reports send it to the admin queue automatically (a post is paused).
- Block works both ways: neither sees the other, numbers can't be revealed.

Automatic checks

- Phone numbers in names are refused; unusual savings, experience, fleet size or post values go to "under check". Nothing normal is held up.
- Safety tips on home: never pay in advance, talk on the phone before meeting.

Verified badge

हिंदी में

चार टिक — ग्रे (प्रोफाइल पूरी), नीला (पहचान जाँची), सुनहरा (जाँचा + काम पक्का + अच्छी रेटिंग), काला (Vahanza ने चुना)। टिक कमाया जाता है, खरीदा नहीं जा सकता। फ़ोटो जाँच के बाद तुरंत मिटा दी जाती है। रेटिंग सिर्फ़ उनके बीच जो सच में संपर्क में आए। शिकायत और ब्लॉक हर कार्ड पर।

Past jobs, confirmed by past owners

What owners trust most is another owner saying "yes, he drove for me". Drivers add where they worked; that owner confirms in one tap.

Adding — one question per screen

- Pick the owner (search Vahanza owners by firm or name) or "मालिक लिस्ट में नहीं है" (name, firm, city, mobile).
- Vehicle + wheels → from (month / year) → till (or "still working there") → type of work → review.

Confirmation

- **Owner on the app:** bell + push → हाँ, सही है / तारीख अलग है / नहीं; then stars, tags and "would hire again?".
- **Owner not on the app:** the driver sends a one-tap link on WhatsApp; the owner answers without logging in.
- **"तारीख अलग है":** the owner corrects the months himself with big month/year buttons; the brand team approves. The driver does nothing more.
- No answer in 7 days, or "not true" → admin check queue.
- Jobs confirmed in the app are added automatically.

What owners see

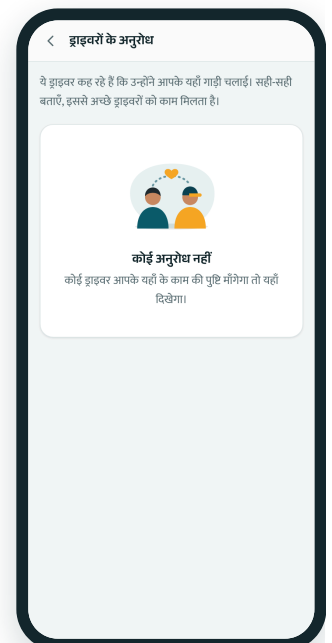

- "✓ 3 owners confirmed · 4 years proven · 2 would hire again" on the card; overlapping jobs count once.
- Drivers with confirmed history rank first among nearby drivers.

Rules

- Limited reminders per entry and per owner number; confirmed entries can't be edited (only hidden); the owner's number is never shown to anyone except admins.

Driver's work history

Owner confirms

हिंदी में

ड्राइवर बताता है कि पहले कहाँ गाड़ी चलाई, और वो मालिक एक टैप में "हाँ" कहता है। मालिक ऐप पर नहीं है तो WhatsApp लिंक से बिना लॉगिन जवाब। तारीख अलग हो तो मालिक खुद सही करता है, Vahanza जाँचता है। पक्के अनुभव वाले ड्राइवर लिस्ट में सबसे ऊपर।

Points, Premium, streak and challenges

A reason to join, come back and bring friends. **Nobody pays money** — Premium is earned with points or given free.

Points (अंक) for useful actions

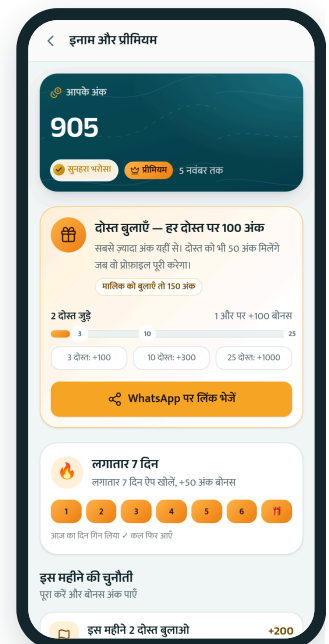

- Profile complete, ID check, work history added / confirmed, answering a driver's history, job confirmed, post live, rating, active each week.
- Inviting friends earns the most:** points per friend who completes the profile, more when a driver brings an owner (or the other way), a welcome bonus for the friend, extra bonuses at 3 / 10 / 25 friends.
- Every point is recorded in a clear history (हिसाब); one reward per action, monthly limits stop misuse.

Premium (with points, or free)

- Owners:** every driver's full history (each owner's stars, "hire again"), blue / gold tick filter, posts first for nearby drivers, more live posts, names of drivers who viewed a post.
- Drivers:** first in nearby owners' lists, names of owners who viewed the profile, more history entries.
- Free Premium:** new-member trial, gold / black tick every month, monthly top inviters, or given by the brand team.
- What is free today stays free — Premium only adds more. Premium badge 🏆 on cards.

Coming back every day

- 🔥 **Streak:** open the app N days in a row → bonus.
- Monthly challenges** (e.g. "invite 3 friends this month, +300") with a progress bar.
- Top inviters** in each district, with a prize on the 1st of every month.

Points & invite

Challenges & top inviters

हिंदी में

हर अच्छे काम पर अंक — सबसे ज़्यादा दोस्त बुलाने पर। अंक से प्रीमियम मिलता है (कोई पैसा नहीं)। प्रीमियम में मालिक को ड्राइवर की पूरी हिस्ट्री और टिक फ़िल्टर, ड्राइवर को लिस्ट में सबसे ऊपर। लगातार ऐप खोलने का बोनस, महीने की चुनौती और ज़िले के टॉप बुलाने वालों को इनाम। सारे अंक एडमिन बदल सकता है।

Invites, sharing, posters and bulk import

Invite friends

Personal link; when a friend completes the profile the inviter gets points and is shown first nearby for 7 days.

WhatsApp job sharing

Every live post has a share link with a preview (vehicle + savings). Drivers forward jobs to friends.

Digital Card

A WhatsApp-Status-size picture of the driver's profile with a QR to their invite link. No phone number.

QR posters

One A4 poster per place (dhaba, transport nagar, RTO...). The admin sees how many opened and joined from each.

Bulk import

Upload Excel / CSV of drivers or transporters (Hindi or English columns). Preview, then invite on WhatsApp / SMS. Profiles come pre-filled.

Public pages

Jobs and drivers visible without login (no names / numbers), so links and posters work for new visitors.

Notifications

10 • Notifications • सूचनाएँ

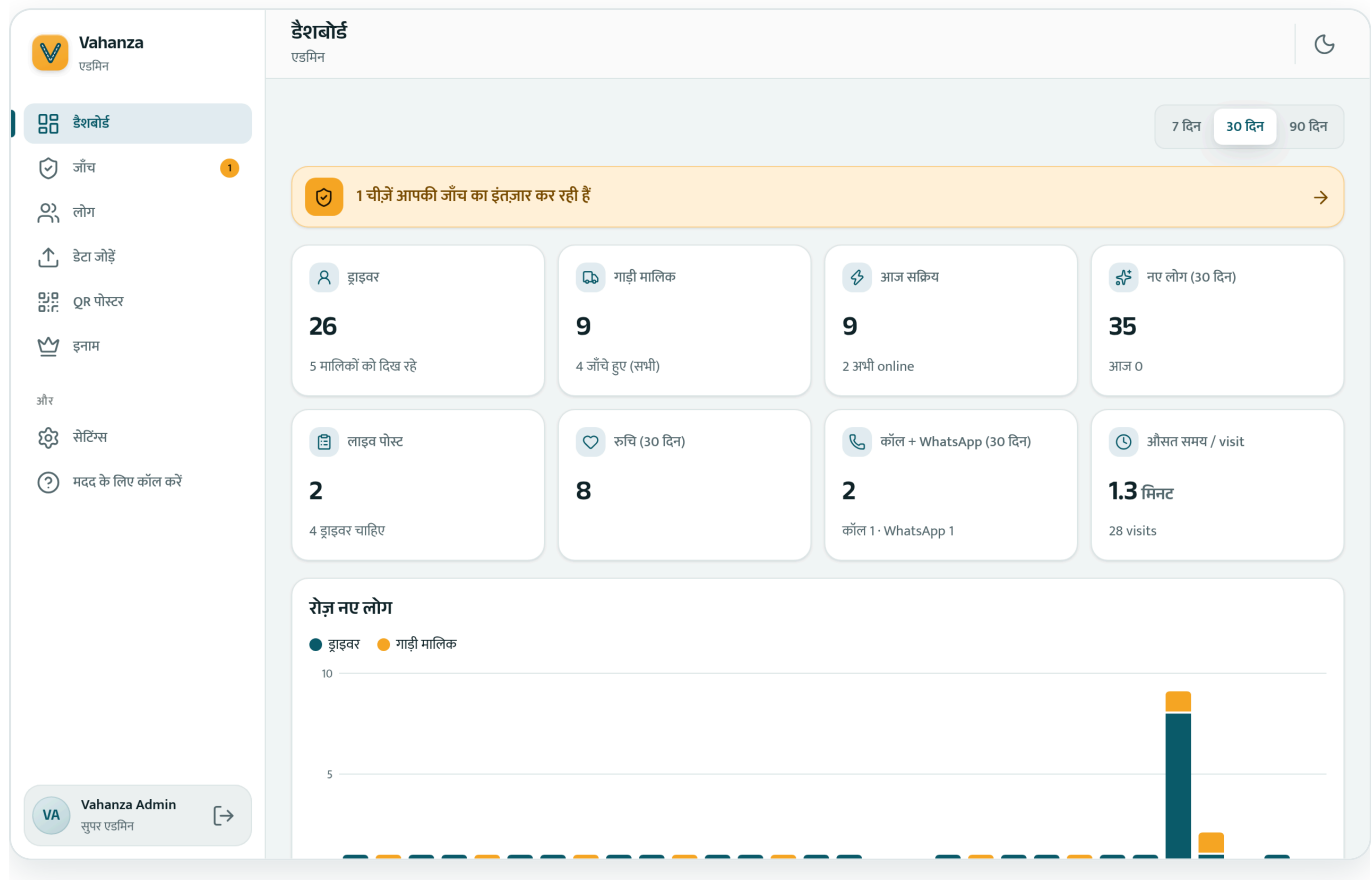

- In-app bell + phone push (asked only at useful moments).
- **Drivers:** new job nearby (max 5 a day), owner saw your profile, weekly views, licence renewal, friend joined, did you get the job?, still looking?, history answered, rewards.
- **Owners:** driver interested, post approved / not approved, driver confirmed the job, weekly post views, history requests, rewards.
- People away for a week hear what's new near them once a week. Every type can be turned off in Settings.

हिंदी में

दोस्त बुलाने का अपना लिंक, WhatsApp पर काम शेयर, ड्राइवर का डिजिटल कार्ड, ढाबा / ट्रांसपोर्ट नगर के लिए QR पोस्टर, और Excel से हजारों लोगों को जोड़कर WhatsApp / SMS से बुलाना। नए काम, रुचि, पुष्टि और इनाम की सूचना बेल और फ़ोन पर।

Run everything from one place

Works on computer and phone. Every admin action is logged (who, what, when). Brand staff see only their own brand.

Dashboard

- Drivers / owners, active today, online now, new users per day, live posts & drivers wanted, interests, calls & WhatsApp.
- Time per visit, how far people get (open → login → profile → action), APK / mobile / desktop / installs, users by city.
- Where new people came from (share, friend's link, poster, invite), jobs confirmed, ratings, verification time, people coming back.

Check queue

- Posts held by automatic checks, flagged profiles, reports, photo verifications, work-history checks (incl. owner-corrected dates).

Users

- Search by name or phone; filter; verify / unverify; block; reset MPIN; black tick; give or end Premium; add / take points.

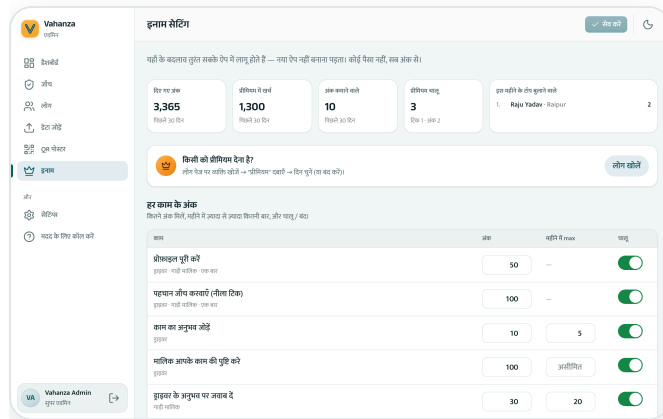

Data import & QR posters

- Excel / CSV import with preview and invite tracking; posters per place with opened / joined counts.

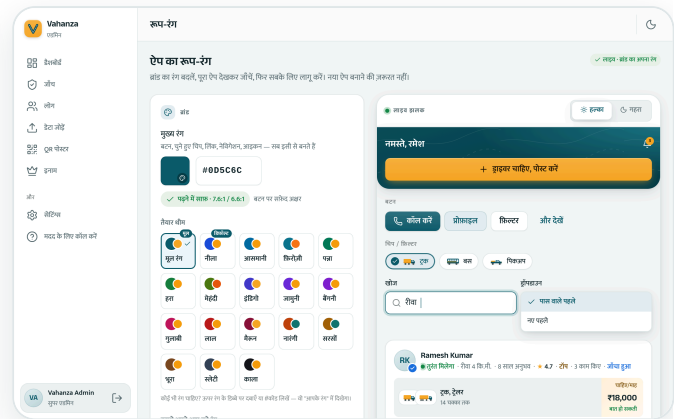

Test accounts

- Any number can be marked as test: hidden from real users and left out of analytics.

Settings that change the app live

Rewards settings

Theme builder

Rewards settings (इनाम)

- Points for every action, monthly limit, on / off.
- Friends bonus and milestones; Premium plans (days = points).
- Free Premium days (new members, gold / black tick), free vs Premium limits.
- Streak, monthly top-inviter prize, **challenges** (add / edit / switch off, with dates).
- Overview: points given / spent, Premium by source, top inviters.

Theme builder (रूप-रंग)

- Change brand colours, corners and density — 18 ready presets or your own colours.
- Live preview on real screens, light and dark, with a contrast check.
- Save draft → Publish: every app (web, installed and Android) updates without a new build.

हिंदी में

एडमिन पैनल में डैशबोर्ड (कितने लोग, कहाँ से आए, कितने कॉल), जाँच की कतार, लोग (वेरिफाई, ब्लॉक, MPIN रीसेट, काला टिक, प्रीमियम देना, अंक), Excel से डेटा, QR पोस्टर, इनाम सेटिंग और ऐप का रूप-रंग। यहाँ के बदलाव तुरंत सबके ऐप में लागू — नया ऐप नहीं बनाना पड़ता।

Built to scale, safe by design

White-label

- Every record carries a brand ID, so more brands can run on the same system without new development.
- Brand name, colours, icon and app ID per brand; colours changeable live from the admin panel.

Platforms

- **Android app** (APK; Play Store listing planned), **web** and **mobile web** installable on the home screen.
- Updates reach web users at once; the app checks for new versions automatically.
- Phone layout with bottom tabs, tablet 2-column, desktop with sidebar. Works down to 320 px wide.

Technology

- React + TypeScript app, Python API, Postgres database with location search, hosted in India (Mumbai region).
- Built-in analytics (no third-party trackers).

Security & privacy

- The database is never read directly by the app — all data goes through the API, which checks every login.
- Phone numbers never shown in lists, cards, share links, posters or public pages; reveals are limited and logged.
- Only the last 4 characters of a licence number are kept; verification photos are deleted after the check.
- MPIN stored only as a secure hash; lockout after wrong tries; app lock on Android.
- Report / block, automatic checks and an admin audit log.
- OTP limits per number; test accounts separated from real ones.

Accessibility

- Big buttons, simple Hindi, voice typing for names and cities, light / dark mode, works on slow phones and networks.

हिंदी में

एक ही सिस्टम पर कई ब्रांड चल सकते हैं। Android ऐप, वेब और मोबाइल वेब — सब एक साथ अपडेट। डेटा भारत (मुंबई) में। नंबर कहीं नहीं दिखता, लाइसेंस के सिर्फ आखिरी 4 अंक रखे जाते हैं, जाँच की फ़ोटो मिटा दी जाती है, MPIN सुरक्षित तरीके से रखा जाता है।

Planned next

Go-live

OTP on WhatsApp with SMS backup, Play Store listing, phone push keys, error monitoring and backups.

Mechanic module

Mechanics nearby for owners and drivers (already shown as "coming soon").

Partner rewards

Coupons and cashback from partners (tyres, fuel, dhabas, insurance) on the same points system.

DigiLocker check

Licence / ID check through DigiLocker after go-live.

WhatsApp updates

Automatic weekly job and driver updates on WhatsApp (Business API).

More brands

New white-label brands on the same platform, each with its own look and settings.

हिंदी में

आगे: WhatsApp पर OTP, Play Store पर ऐप, मिस्ट्री वाला हिस्सा, पार्टनर कूपन / कैशबैक, DigiLocker से जाँच, और WhatsApp पर हफ़्ते की खबर।
